

High-Flex / Continuous Flex USB 2.0 Cable

USBFireWire.com's High-Flex Continuous Flex USB 2.0 cable is designed to surpass 10 million flex cycles in the harshest environments.

It has double shielded protection (metal braid over foil) that allows it to be used in electrically noisy environments without interference, as well as our unique ESD control capability, which can help drain static discharges and protect your device.

Cable Properties	
Jacket	PVC
Outer Diameter	4.5mm (0.177 in)
Shield	Braid over Foil
Braid Coverage	90% /Reverse Spiral
RoHS Compliance	Yes
Minimum Bend Radius	44.95 mm (1.77 in)
UL Rating Status	Yes
Flame Rating	VW-1
Voltage	30V
Max Operating Temp	80C

Conductors – Power / Ground	
Insulation	PVC
AWG	26 AWG
Strands	19/38 TC
OD	1.01 mm

Conductors – Data Pair	
Insulation	PVC
AWG	28 AWG
Strands	19/40 TC
OD	0.83 mm
