USB and FireWire – Open-ended Cables

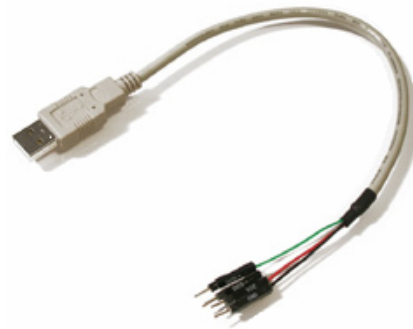

Versatility - We have introduced the new line of Open-ended USB and FireWire Cables to allow you to integrate the cable into your design.

Quality – We proudly manufacture our cables to exceed all USB 2.0 and IEEE1394 Standards and meet RoHS Standards. We back each cable with our “100% Satisfaction Guarantee” – to help you buy with confidence.

Current Markets and Applications:

- Prototype Development
- Robotic Engineering
- Mechanical Engineering
- Custom Cable Projects

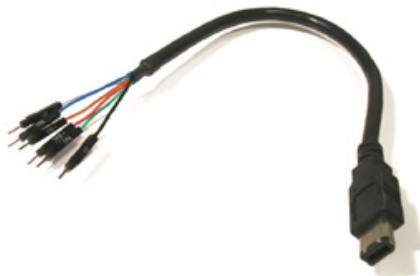

USB Adapter Cable - A Male to Separated Connectors
Part# RR-USB2-4-OP

Specifications:

- Cable Type: USB or FireWire
- Component Certifications: UL / RoHS
- Shielding: Double
- Shield Type: Metal braid over foil
- Separated connectors – each individually labeled
- Built in connector inserts – allow both male and female connectivity
- Connector: PVC over Mold

FireWire Adapter Cable - 6pin to Separated Connectors
Part# RR-IEEE-1394-6-OP

USB - I/O Cable - Series A Socket with Bracket to Null Assembly
Part# RR-UR2-1001G
